

**YOUR DREAM HOUSE IS  
WITHIN YOUR REACH**

September 17, 2010

Gruppo Arkitekto Company Incorporated presented a talk entitled "SIMPLE LANG MAGKABAHAY: Isang Panimulang Hakbang Tungo sa Istorya at Katuparan ng iyong Pangarap na Bahay" at All Oceans Maritime Agency office with the assistance of Captain Roel Codilan in Mary Backrack Building Port Area Manila

All seafarers who attended the talk were all eager to listen as they discovered the five easy steps in acquiring and designing their very own dream house for as low as Php 800,000.00

The cost is for the house design and build excluding the miscellaneous fees and other legal documents needed for the house construction.

Experience has taught us that behind every successful project is a great working relationship with our clients. In this way, working with the dedicated design team, the client's needs melded with the designer's views to produce a complete project tailored to each client's goals.

**GRUPPO Arkitekto Company Incorporated**

Prides itself in designing structures that are innovative and structurally sound.
