GRUPPO ARKITEKTO COMPANY @ ONE

Gruppo Arkitekto Company celebrated its first anniversary last Tuesday, January 18, 2011 as we enjoy the sumptuous and delightful meal at the Fish Co. Restaurant.

The company's approach to its work has always been driven since the time of its existence by two factors which it believes are essential to running a successful commercial and residential architectural practice: namely, to provide a high quality and efficient service for its clients, and to adopt a design approach that prioritizes the creation of workable and livable spaces.
